

Wind Turbine Generators

One of the Key Components for Wind Power Generation

● High Quality

- Long Operation Hours
- Easy Maintenance
- Low Failure Ratio

(Proven by many references of supplies since 2003)

● Applicable Standards

- American or European Standard
- Japanese Industrial Standard (JIS)
- ISO Metric (Screw and threads)

● Super-efficient with Amorphous Transformer

- Dramatically Reduces Power Transmission Loss

Hitachi Wind Turbine Generator
6-pole, 800-1600min-1, IP54, Insulation Class F

Super-efficient with Amorphous Transformer
