1. Product and Company Identification

**Product Code:** JP-K87  
**Product Name:** JP-K87  
**Company Name:** Hitachi America, Ltd  
50 Prospect Ave  
Tarrytown, NY  
**Web site address:** www.hitachi-america.us/ice/inkjetprinters/  
**Emergency Contact:** Chemtrec  
(800)424-9300

2. Hazards Identification

- Flammable Liquids, Category 2  
- Acute Toxicity: Oral, Category 5  
- Skin Corrosion/Irritation, Category 2  
- Serious Eye Damage/Eye Irritation, Category 2  
- Specific Target Organ Toxicity (single exposure), Category 1  
- Specific Target Organ Toxicity (single exposure), Category 2  
- Specific Target Organ Toxicity (single exposure), Category 3  
- Specific Target Organ Toxicity (repeated exposure), Category 1  
- Aspiration Toxicity, Category 2

**GHS Signal Word:** Danger

**GHS Hazard Phrases:**  
Highly flammable liquid and vapor.  
May be harmful if swallowed.  
May be harmful if swallowed and enters airways.  
Causes skin irritation.  
Causes serious eye irritation.  
May cause respiratory irritation.  
Causes damage to organs.  
May cause damage to organs.  
Causes damage to organs through prolonged or repeated exposure.

**GHS Precaution Phrases:**  
Keep away from heat/sparks/open flames/hot surfaces. - No smoking.  
Keep container tightly closed.  
Use explosion-proof electrical/ventilating/lighting equipment.  
Use only non-sparking tools.  
Take precautionary measures against static discharge.  
Do not breathe dust/fume/gas/mist/vapours/spray.  
Wash hands thoroughly after handling.  
Do not eat, drink or smoke when using this product.  
Use only outdoors or in a well-ventilated area.  
Wear protective gloves/protective clothing/eye protection/face protection.

**GHS Response Phrases:**  
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.  
IF ON SKIN: Wash with plenty of soap and water.  
IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower.  
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if
present and easy to do. Continue rinsing.
IF exposed: Call a POISON CENTER or doctor/physician.
Call a POISON CENTER or doctor/physician if exposed or you feel unwell.
Call a POISON CENTER or doctor/physician if you feel unwell.
Get medical attention/advice if you feel unwell.
Specific treatment see section 4 on this label.
Do NOT induce vomiting.
If skin irritation occurs, get medical advice/attention.
If eye irritation persists, get medical advice/attention.
Take off contaminated clothing and wash before re-use.

GHS Storage and Disposal
Phrases:
Store in cool/well-ventilated place.
Store locked up.
Dispose of contents/container listed in 40 CFR Parts 261.

Potential Health Effects
(Acute and Chronic):
Chronic: Chronic inhalation may cause effects similar to those of acute inhalation.
Prolonged or repeated skin contact may cause defatting and dermatitis. Animal studies
have reported that fetal effects/abnormalities may occur when maternal toxicity is seen.
Chronic overexposure to vapors may cause lung damage.

Inhalation:
Causes respiratory tract irritation. Inhalation of vapors may cause drowsiness and
dizziness. May cause central nervous system effects such as nausea and headache.
Neurobehavioural effects of exposure to MEK (200 ppm for 4 hrs) were studied with 137
volunteers. There were no statistically significant effects observed in biochemical,
psychomotor, sensorimotor and psychological tests.

Skin Contact:
May be absorbed through the skin in harmful amounts. Repeated or prolonged exposure
may cause drying and cracking of the skin. Only one human case of skin sensitization
was located. Negative results were obtained in an animal test; MEK did not produce skin
sensitization in the mouse ear thickness test.

Eye Contact:
Causes eye irritation. Vapors may cause eye irritation. Animal evidence suggests that
MEK is a moderate to severe eye irritant.

Ingestion:
May cause irritation of the digestive tract. Possible aspiration hazard. May cause central
nervous system depression. Animal evidence suggests that MEK can be aspirated
(inhaled) into the lungs during ingestion or vomiting.

3. Composition/Information on Ingredients

<table>

</tr>
</tbody>
</table>
4. First Aid Measures

**Emergency and First Aid Procedures:**

**In Case of Inhalation:** If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

**In Case of Skin Contact:** In case of contact, flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical aid if irritation develops and persists. Wash clothing before reuse.

**In Case of Eye Contact:** In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical aid.

**In Case of Ingestion:** Potential for aspiration if swallowed. Get medical aid immediately. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs naturally, have victim lean forward.

**Note to Physician:** Treat symptomatically and supportively.

5. Fire Fighting Measures

**Flash Pt:** -8.20 °C (17.2 °F)   Method Used: Closed Cup

**Explosive Limits:**

- LEL: 1.4 vol% at 93.0 °C (199.4 °F)
- UEL: 11.4 vol% at 93.0 °C (199.4 °F)

**Autoignition Pt:** 505.00 °C (941.0 °F)

**Suitable Extinguishing Media:** In case of fire, use carbon dioxide, dry chemical powder or appropriate foam. Water may be ineffective because it will not cool material below its flash point.

**Fire Fighting Instructions:** As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Extremely flammable liquid and vapor. Vapor may cause flash fire. Vapors are heavier than air and may travel to a source of ignition and flash back. Vapors can spread along the ground and collect in low or confined areas.

6. Accidental Release Measures

**Steps To Be Taken In Case Material Is Released Or Spilled:** Use proper personal protective equipment as indicated in Section 8. Spills/Leaks: Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Clean up spills immediately, observing precautions in the Protective Equipment section. Remove all sources of ignition. Use a spark-proof tool. Provide ventilation.

7. Handling and Storage

**Precautions To Be Taken in Handling:** Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Ground and bond containers when transferring material. Use spark-proof tools and explosion proof equipment. Avoid contact with eyes, skin, and clothing. Empty containers retain product residue, (liquid and/or vapor), and can be dangerous. Keep container tightly closed. Keep away from heat, sparks and flame. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat, sparks or open flames. Use only with adequate ventilation. Avoid breathing vapor.

**Precautions To Be Taken in Storing:** Keep away from sources of ignition. Store in a cool, dry, well-ventilated area away from incompatible substances. Flammables-area.

8. Exposure Controls/Personal Protection
CAS # | Partial Chemical Name | OSHA TWA | ACGIH TWA | Other Limits |
--- | --- | --- | --- | --- |
78-93-3 | Methyl ethyl ketone | PEL: 200 ppm | TLV: 200 ppm | STEL: 300 ppm |
| | Proprietary chrome complex | | | |

**Respiratory Equipment (Specify Type):**
Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

**Eye Protection:**
Wear chemical splash goggles.

**Protective Gloves:**
Wear appropriate protective gloves to prevent skin exposure.

**Other Protective Clothing:**
Wear appropriate protective clothing to prevent skin exposure.

**Engineering Controls (Ventilation etc.):**
Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits. Ventilation fans and other electrical service must be non-sparking and have an explosion-proof design.

### 9. Physical and Chemical Properties

**Physical States:**
- [ ] Gas
- [X] Liquid
- [ ] Solid

**Appearance and Odor:**
Black.
Solvent odor.

**Melting Point:**
-87.00 C (-124.6 F)

**Boiling Point:**
80.00 C (176.0 F)

**Decomposition Temperature:**
NA

**Autoignition Pt:**
505.00 C (941.0 F)

**Flash Pt:**
-8.20 C (17.2 F)  Method Used: Closed Cup

**Explosive Limits:**
- LEL: 1.4 vol% at 93.0 C (199.4 F)
- UEL: 11.4 vol% at 93.0 C (199.4 F)

**Specific Gravity (Water = 1):**
- Density: 0.8050 G/ML
- Vapor Pressure (vs. Air or mm Hg): 77.5 MM_HG at 20.0 C (68.0 F)
- Vapor Density (vs. Air = 1): 2.41 (air=1)
- Evaporation Rate: 3.7 (nBuAc=1)
- Solubility in Water: Soluble.
- Viscosity: 0.41 CP at 20.0 C (68.0 F)
- pH: NA
- Percent Volatile: C4H8O
- Molecular Formula & Weight: 72.11

### 10. Stability and Reactivity

**Stability:**
- Unstable [ ]
- Stable [X]

**Conditions To Avoid:**
- Ignition sources, Excess heat.

**Instability:**
- Strong oxidizing agents, Strong acids, 2-propanol.

**Incompatibility - Materials To Avoid:**
- Carbon monoxide, Carbon dioxide.

**Hazardous Decomposition Or:**
- Will occur [ ]
- Will not occur [X]

**Byproducts:**
- Carbon monoxide, Carbon dioxide.

**Possible Conditions To Avoid:**
- Will occur [ ]
- Will not occur [X]
11. Toxicological Information

Toxicological Information:

Carcinogenicity/Other Information: CAS# 78-93-3: Not listed by ACGIH, IARC, NTP, or CA Prop 65.

12. Ecological Information

General Ecological Information: Environmental: Substance evaporates in water with T1/2= 3D (rivers) to 12D (lakes). Substance is not expected to bioconcentrate in marine life. Physical: Substance photodegrades in air with T1/2 = 2.3 days. Oxidizes rapidly by photo-chemical reactions in air. Readily biodegradable meeting the 10 day window criterion. Not expected to bioaccumulate significantly.

13. Disposal Considerations

Waste Disposal Method: Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. US EPA guidelines for the classification determination are listed in 40 CFR Parts 261. Additionally, waste generators must consult state and local hazardous waste regulations to ensure complete and accurate classification.

RCRA P-Series: None listed.

RCRA U-Series:

CAS# 78-93-3: waste number U159 (Ignitable waste, Toxic waste).

14. Transport Information

LAND TRANSPORT (US DOT):

DOT Proper Shipping Name: Printing ink

DOT Hazard Class: 3 FLAMMABLE LIQUID

UN/NA Number: UN1210 Packing Group: II
15. Regulatory Information

EPA SARA (Superfund Amendments and Reauthorization Act of 1986) Lists
